

Our Future Beeston Hub Worker

What we're looking for:

We are seeking a passionate, locally rooted individual to act as the local hub worker in the Beeston climate action hub. You will be the key community rooted resource to help residents in Beeston succeed in putting their climate action plans into practice. This role is 15 hours per week it requires you to be flexible in your working approach, including evening and weekend working.

Salary & benefits

- £10,220 for 15 hours PW (equivalent of £25,550 FTE)
- 5% employer pension contribution
- Pro-rata holiday pay and sick pay
- Annual increases on 1st October of c.2% per year

About Climate Action Leeds (the Partnership)

This job is part of a new £2.5 million climate action programme of work in Leeds funded by the National Lottery Climate Action Fund. This work is being taken forward by a partnership made up of Voluntary Action Leeds, Our Future Leeds, Together for Peace and Leeds TIDAL. The overall aim of this work is to create a 'zero-carbon, nature friendly, socially just Leeds by the 2030s'. We are aware that this partnership is currently composed of a majority of white people and we are increasingly aware of the limitations and problems that this brings about within our work and within our wider society. We recognise the need and the value, both within the staffing team and in relation to the communities we are working with, for people from other backgrounds and heritages.

About Together for Peace (T4P)

T4P is delivering the neighbourhood hubs work within the Climate Action Leeds programme. This work is carried out by a team of associates and contractors operating with a flat collaborative structure. We will be working in 8 neighbourhoods in Leeds to develop local climate action groups. Each group will be supported to run a range of activities through a local climate hub. We have a passion for working with diverse communities, focusing on careful listening, supporting participation and encouraging leadership. You can read more about T4P [on the website here](#).

About Health for All

Health for All was founded in 1991 on three core principles: redressing health inequality, promoting community participation and promoting collaboration. These founding pillars were designed to address the root causes of poor health and the overall impact of these causes on the health and wellbeing of individuals. Health for All advocates and enables the targeting of resources to those most in need. It recognises that the involvement of communities is essential to solving the health challenges they face. Health for All is a charity created to meet the needs of people in south Leeds and continues to respond to the changing needs of individuals and communities in Leeds and beyond.

About Our Future Beeston

Our Future Beeston is a new initiative involving Beeston residents in the vision, direction & decisions taken to develop new activities in the area which are linked to issues relating to the changing climate. The aim is to initiate a Climate Hub in Beeston which will be a point of information & connection on climate related issues for anyone living in the area. Our Future Beeston is an umbrella group supporting various different new initiatives.

Our Future Beeston has a Steering Group comprising of local residents, a T4P development worker & a staff member from Health for All. They are the decision-making group for the initiative and will have responsibility for directing the hub worker's focus & tasks.
